Serial No.: 10/790,398

Filed: 03/01/2004

**AMENDMENT**

June 20, 2006

Honorable Commissioner of  
Patents and Trademarks  
Washington, D.C. 20231

Restriction has been required between Claims 1-19 drawn to a package  
classified in Class 206 and Claim 20 drawn to a method of packaging in element  
classified in Class 53.

Applicant herewith elects, without traverse, Claims 1-19 drawn to a  
package classified in Class 206 for further prosecution.

It has further been noted that due to a typographical error in the original  
Declaration, the priority date of the corresponding European application has been  
indicated as March 4, 2003 instead of March 6, 2003.

This is an inadvertent error.

**Reasons For Allowance**

The following is an examiner's statement of reasons for allowance: the prior art does not disclose a clamp having an opening with a vertical axis parallel to an in spaced-relationship to said vertical axis of said receptacle; a frame including a base extending between said opposite ends and located beneath said channel; and a pair of spaced-apart posts supporting said channel on said base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
